

## ROADSIGHT Hard Wire Kit 2500

### Hard wire kit to enable parking mode on OSRAM ROADSIGHT 2500 DASH CAM

Hardwire kit to enable parking mode on OSRAM ROADSight 2500 dash cameras. Provides an easy and secure connection between your dash camera and the vehicle's fuse box.

Required for parking mode on 2500 models.

Parking mode automatically records video for up to 30 seconds when motion is detected while parked.

Connect the kit to your dash camera using the supplied USB-C cable.

Includes three connection cables for installation to the vehicle's fuse box.
