

BATTERYjumpstart 2000

All the power you need

Reliable jump-starts even on large 8.0L petrol and 4.0L diesel engines

2000A Peak Starting Power

Delivers maximum starting performance with 2000A peak current enabling fast

PD60W Power

Fast charges phones[PS2.1] and other devices via the built in USB ports

Powerful and safe jumpstarting for 12V vehicles with integrated USB charging and enhanced safety features

Meet BATTERYjumpstart 2000, the ultimate jump starter for high-performance vehicles. With 2000A peak power, it can jump-start engines up to 8.0L petrol and 4.0L diesel in seconds.

Featuring a large color display for clear feedback and PD65W fast charging, OJS040 doubles as a power bank for laptops, tablets, and smartphones. Built-in multiple safety protections help worry-free operation, while the included carry bag and cables make it easy to store and transport. Whether you're on the road or off the beaten track, OJS040 delivers power, and convenience when you need it most.
